About Al Ghurair Development

Drawing on decades of construction experience and a deep commitment to excellence, Al Ghurair Development is transforming the real estate landscape by creating residential experiences that anticipate evolving lifestyles and enhance urban environments.

About Al Ghurair

Al Ghurair is one of the largest diversified family business groups in the Middle East, with operations in five distinct strategic sectors: Foods, Mobility, Development, Infrastructure and Property Management. Established in 1960 as a trading business, Al Ghurair was one of the first pillars of industry and commerce in the United Arab Emirates. From modest beginnings, and with a proud history of innovation and entrepreneurship, the Al Ghurair family name is synonymous with the heritage, evolution, and vision of the UAE.

Al Ghurair Foods

Al Ghurair Development

Al Ghurair Mobility

Al Ghurair Infrastructure

Al Ghurair Property Management

Al Ghurair has played a pivotal role in shaping Dubai's skyline through complex infrastructure and construction projects, contributing to some of the city's most iconic landmarks, as well as large scale developments across the Middle East, Africa and India.

With over 20,000 residential and commercial units built and managed and nearly 1,000 hotel rooms and serviced units, Al Ghurair has delivered transformative progress in the city.

Headquartered in Dubai, Al Ghurair's diversified operations span more than 20 countries across the globe, employing approximately 28,000 people. From creating the region's first shopping mall and mixed-use concept, establishing its first private bank and private insurance company, to building the facade glazing of Burj Khalifa, Al Ghurair has long been at the heart of the nation's growth. Today, Al Ghurair continues to build on its enduring 60+ year legacy, guided by its purpose: 'In pursuit of better', as it strives to facilitate meaningful change across the communities within which it operates.

of the UAE's total chilled water quota delivered to date

100+

major construction projects successfully completed

The image shows a modern, curved residential building with multiple levels of balconies and large glass windows. The building is illuminated by warm, golden light, suggesting sunset or sunrise. The balconies are furnished with plants and outdoor furniture. In the background, a city skyline with various high-rise buildings is visible, along with a large area of green trees in the foreground. The overall scene is a mix of urban architecture and nature.

TheWeave

What makes a story is how it's woven.
What creates a classic is how it endures.

Façade

— as a fabric

The captivating use of angles and intertwining balconies across the façade is inspired by the intricate weaving of palm fronds, highlighting the versatility and beauty of natural materials found in the Middle Eastern landscape.

Shapes

— that reflect beauty

The Weave is where history's patterns meet modern aspirations. Every curve of the building has been meticulously crafted to create inspiring homes that reflect elegance and beauty.
